## FRENCH RETAKE FORT VAUX ON THE VERDUN FRONT

## TEUTONS BLOW UP STORES BEFORE THEIR EVACUATION

Heavy Bombardment Precedes the Surrender of This Important and Coveted Position

(By Associated Press.)

PARIS (official), Nov. 3.—The French occupied Fort Vaux after waiting for a cessation of great explosions inside. The fort, evacuated by the Germans yesterday, passed again into the possession of the French without loss.

The Germans gave up the fort as a result of a violent French bombardment and the gradual closing in of French troops. The re-entrance of the French was not contested. The ring of Verdun forts has been re-established and is firmly held by the French.

BERLIN (official), Nov. 3.—Portions of Sully-Saillies, on the Somme front, which were taken by the Germans, have again been lost to the French. Attempts by the allies to advance east of Guedecourt and against the northern part of the St. Pierre Vaast wood resulted in failure.

## WAR NEWS AT A GLANCE

(By Associated Press.)

After months of strife between the adherents of former Premier Venizelos and adherents of King Constantine over the question of Greece's stand in the war, a revolution of considerable proportions has broken out in the region southwest of Saloniki. Six hundred insurgents, probably followers of Venizelos, forced 150 royalist troops to evacuate Katerina and retreat upon Larissa, 40 miles southwest in Thessaly, where they are expected to receive reinforcements. The troops have received orders from the king to prevent at all costs the advance of the revolutionists.

On the fighting fronts important successes have been obtained by the French in the region of Fort Vaux, northeast of Verdun; by the Italians in a further push forward in the Gorizia and Carso sectors through which they are trying to reach Trieste, and by the Germans in Volynia near Witoniez, where Russian positions were stormed and captured and 22 officers and 1508 men were made prisoner.

The Transylvania theater is witnessing a continuation of the advance of the Austro-Germans south of the Rotherthurn pass while in the Jiu valley the Rumanians are continuing their pursuit of the Teutons.

## ECONOMIC ALLIANCE IS BEING CONSIDERED

SCIENTIFIC CO-OPERATION TO BE BASED ON A MUTUAL UNDERSTANDING

(By Associated Press.)

NEW YORK, Nov. 3.—The chamber of commerce of the state of New York yesterday adopted a resolution authorizing a committee to communicate with leading American commercial organizations at home and abroad as well as with congressional committees, federal departments and committees concerned with international relations to obtain by scientific co-operation and study a mutual understanding of the possible effects on American foreign commerce of trade policies which may be developed by economic alliances.

Holding that the appointment of the United States tariff commission was a matter of peculiar importance at this time, the chamber urged better salaries for the members than the \$7000 fixed by congress in order to command the services of men of the experience and qualifications required by the commission's work. The chamber adopted also a resolution urging legislation during the next session of congress "that all permit co-operation for export trade, with due safeguards against unreasonable restraint of domestic commerce as an essential measure of preparation for the extension of American foreign trade."

## CRUX OF QUESTION IN THE MARINA CASE

IMPORTANCE ATTACHED TO THE FACT THAT VESSEL WAS CARRYING CANNON

(By Associated Press.)

WASHINGTON, Nov. 3.—Secretary Lansing explained that the state department held that Germany's pledges not to sink merchant ships without proper provision for the safety of persons on board applied to merchantmen armed for defense as well as to unarmed vessels. Germany's last specific word on armed ships, however, was her memorandum announcing that they would be treated as war vessels, and the fact that the Marina carried a 4.7 inch gun is expected to play a conspicuous part in the exchanges that will follow if it is established that she was attacked without warning.

## CHAS. E. HUGHES HAS NO EXPLANATIONS TO MAKE

Republican Candidate Does Not Consider He Owes Apology to the Administration

(By Associated Press.)

ALBANY, N. Y., Nov. 3.—Charles E. Hughes told audiences in central New York yesterday, the last day but one of his campaign tour, that he had no apologies to make for his attack on the administration with reference to the maintenance of American rights, and that he proposed, if elected, to make the American flag the symbol not only of courtesy and justice, but of fairness and consistency in maintaining "our known rights on land and sea."

The nominee assailed the administration for its alleged failure to aid in the development of American trade abroad by upholding American rights, characterized as "very cruel and unwarrantable" suggestions that a vote for him meant a vote for war, and declared that in American relations with foreign nations he was opposed to a "muddle of meddles."

At Batavia, the first stop of the day, Mr. Hughes asserted that he had entire confidence in the result of the elections in Indiana and Ohio. In his speech here last night the nominee defined political leadership. The meeting here was presided over by William Barnes, former Republican state chairman.

Mr. Hughes spoke at Oneida, Amsterdam, Schenectady and Troy on his way here. The addresses at Oneida and Amsterdam were five minute talks, in which the nominee reiterated freely his attitude towards the chief issues of the day.

The speech at Schenectady was before an audience that had awaited his arrival for more than an hour. Many persons were turned away from this meeting, unable to gain entrance to the hall.

"Our opponents do not seem to like the idea of criticism with respect to international policy," Mr. Hughes said in his Schenectady speech, "but

## MANAGERS FOR BOTH PARTIES ARE CONFIDENT

(By Associated Press.)

CHICAGO, Nov. 3.—Alvin T. Hert, manager of the western Republican headquarters, has announced that the final reports received of the states in his jurisdiction are more favorable for Republican success than any received at any time during the campaign. Leaders claim Wisconsin, Indiana, Illinois, Ohio, North and South Dakota, Minnesota, Idaho and even Missouri. Kentucky is certain to cast its electoral votes for Hughes and Fairbanks. Senator Walsh, manager of the western Democratic headquarters, declared the prospects for Democratic victory were never brighter than at present. He says the final reports indicate that every state in the west claimed by the Republicans will either be reasonably safe for Wilson or be doubtful.

## NOBODY KNOWS MEANING OF ADAMSON LAW

(By Associated Press.)

CHICAGO, Nov. 3.—E. P. Ripley, president of the Atchison, Topeka & Santa Fe railroad, addressing members of the City club, let it be known that legal talent for the railroads is still in a quandary as to what the roads should do regarding the Adamson eight hour law. "Nobody knows what the Adamson law means or how it can be applied to existing conditions," he said. "The law, when tested, will probably find itself in the United States supreme court unless it is modified by congress before the date it becomes effective."

## MARINA EVIDENCE WILL BE DEFERRED

ACTION WILL BE DELAYED BY THE UNITED STATES GOVERNMENT

(By Associated Press.)

WASHINGTON, Nov. 3.—Conclusive evidence as to whether Germany violated her pledges to the United States in sinking, apparently without warning, the British freighter Marina, with the loss of six American lives, is not expected by the state department before the latter part of next week. Secretary Lansing said information was coming in slowly and that at least a week was expected to elapse before full evidence would be at hand.

Even though the information desired from British sources and the American survivors of the Marina were at hand, any action by the United States government would be delayed pending Germany's reply to the informal request for her version of the incident. In previous instances where such a request has been made, a week or more has elapsed before the attacking submarine has come in and several days further have been needed to collect and transmit the information.

American officials in England have sent only a few dispatches in the last 24 hours, not including any affidavits or summaries of affidavits.

## OVATION TO CANDIDATES GIVEN IN STATE CAPITAL

Sam Platt Accorded a Reception in His Home Town by Many Loyal Supporters

(Special to the Bonanza.)

CARSON CITY, Nov. 3.—The greatest demonstration in the history of Carson City marked the homecoming of three of its residents and the opening of the Republican campaign here last night. The opera house was packed to its utmost capacity and no audience has ever been more demonstrative. With over two hundred men in line with flaming torches and with every available automobile in town following, a parade such as was never seen before here opened the evening's program. The candidates marched after the band and the auto line was led by a machine carrying the aged mothers of Sam Platt and Congressman Roberts, as well as the wives of the married candidates.

State Engineer Wm. Kearney presided and Sam Platt was accorded an ovation with cheers and applause that lasted several minutes. When he pledged himself to the cause of suffrage there was a great outburst of applause and as he explained the Pittman land bill he was followed with the closest interest. He demolished Pittman's defense, that he was responsible for the ultimate result of his own bill. "I would have quit if I thought an amendment was bad," said Platt. "I would not consent to an amendment merely to get the bill passed."

Congressman Roberts was applauded for several minutes when he arose. "When the war is over," he said, "you will resume the bad times under the Underwood tariff that continued for ten months before the war, unless you have a Republican tariff." The demonstration has not been exceeded anywhere in Nevada to date.

A table showing the total shipping losses since the war began estimates those of the entente allies at 76 per cent, the neutrals 18, with Teutonic losses of less than seven per cent.

## OFFENSIVE SLOWS UP TRANSYLVANIA FRONT

(By Associated Press.)

ATHENS, Oct. 31, via London, Nov. 2, 6:09 p. m. (delayed).—The Austro-German offensive in Transylvania appears definitely to have arrived at a stop," declared N. N. Filodor, the Rumanian minister to Greece today, to the Associated Press correspondent. "Operations of this smashing nature, like the attack on Paris, must be instantly successful if they are not destined to fail utterly," continued M. Filodor.

"Every day that we are able to postpone disaster, we grow stronger and our opponents grow weaker. Any concerted attack presupposes a certain amount of unpreparedness on the part of those attacked, but if it is not immediately successful, the preparedness of those attacked constantly increased, as was the case at Verdun."

"This is precisely what happened in Rumania and is why the Austro-German offensive already is doomed. Moreover the fact that General Falkenhayn seems to have been replaced by Archduke Charles Francis on this front can be taken as showing that even the German general staff realizes the failure of the attempt."

## THIRTY-TWO ARTICLES GOING UP IN PRICE

SAN FRANCISCO BAKERS WILL NOT PUT UP COST OF BREAD

(By Associated Press.)

SAN FRANCISCO, Nov. 3.—Advances since last Friday in prices of 32 items in their stocks are enumerated by retail grocers. Matches, starch, French sardines and Saratoga chips are included in the list. The tendency to raise prices has reached the stock raisers with a result, it is said, that sheep owners are holding out for \$2 per head more than the present unusually high prices offered by the packer. Retail grocers and small bakers here are scheduled to sign contracts resulting in five and ten cent leaves of bread remaining available, despite the raise announced to six and twelve, which was authorized by the master bakers.

## ORE NEARLY ALL SULPHIDE

Both the Rescue and Halifax are shipping by auto trucks down Main street and at one time it was easy to distinguish the two ores, that of the Halifax being red with oxidation, but now it is being nearly all taken from the thirteenth level, where the vein is in the sulphide zone. Some ore is being also taken from the intermediates up to the twelfth floor.

## THE MEXICAN-AMERICAN COMMISSION ADJOURNS

ATLANTIC CITY, N. J., Nov. 3.—The net result of the nine weeks of conference of the Mexican-American joint commission, which adjourned yesterday over the election until November 10, is that the Mexican commissioners have learned that any agreement by the commission must cover not only the policing of the frontier, but Mexican internal affairs, it was learned last night. The American commissioners insist that any adjustment must deal with the basic principles of Mexican government.

The American members have made it plain to the Mexicans that before General Pershing's troops are withdrawn, Mexico must demonstrate that the presence of American troops along the border or even in Mexico is unnecessary to prevent raids by bandits. The American commissioners have largely increased their knowledge of actual conditions in Mexico.
